INTERNATIONAL SEARCH REPORT

International application No.

PCT/EP 94/01323

Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

See annex.

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invoice payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☒ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

1,2,6-10 partially ; 11,15-23 partially.

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/210

LACK OF UNITY OF INVENTION

1. Claims: 1;2;6-10 (partially); 11;15-23 (partially):
Polynucleotides or amino acids corresponding
to the core/E1 region of HCV subtype 3a and
their uses.
2. Claims: 1;2;6-10 (partially); 11;15-23 (partially):
Polynucleotides or amino acids corresponding
to other regions of the genome of HCV subtypes 3,
3a and 3c and their uses.
3. Claims: 1;3;6-10 (partially); 13;15-23 (partially):
Polynucleotides or amino acids corresponding
to various regions of the genome of HCV subtype 5
and their uses.
4. Claims: 1;4;6-10 (partially); 12;15-23 (partially):
Polynucleotides or amino acids corresponding to
various regions of the genome of HCV subtype 4 and
their uses.
5. Claims: 1;5;6-10 (partially); 14;15-23 (partially):
Polynucleotides or amino acids corresponding to
various regions of the genome of HCV subtype 2d
and their uses.

: PETITION DECISION
:
:

This is a decision on the petition under 37 CFR 1.181, filed December 19, 2002, requesting removal of an improper restriction requirement.

BACKGROUND

A review of the pertinent portion of the file history shows that this application was allowed and the Issue Fee was paid prior to September, 1999. Through error the application was held abandoned in August, 2000, and the abandonment rescinded in December, 2000. In January, 2001, a petition under 37 CFR 1.313 accompanied by an RCE request and an IDS statement was filed. The petition was granted on January 26, 2001, which was too late to prevent publication of the patent, per se. By Notice in the Official Gazette indication was given that no patent had issued for the assigned number. The application was then returned to the examiner for further action.

Subsequently several additional IDS statements were submitted as well as an amendment. The examiner mailed an Office action to applicants on November 19, 2002, setting forth a two way restriction requirement, as follows:

Group I, claims 75-84, drawn to unique polypeptides from differing HCV genomes;
Group II, claim 85, drawn to a purified polypeptide.

In addition, the election of a single amino acid sequence was required irrespective of whichever group was elected. Applicants replied on December 19, 2002, electing Group I and SEQ ID NO. 43 with traverse. Applicants also filed this petition to have the restriction requirement withdrawn.

DISCUSSION

COPY

Applicants argue that all of the claims currently active in the application were prosecuted and allowed by the same examiner in June, 1999. Applicants have amended the claims only to cancel one dependent claim and to remove some of the sequence identifiers from the claims so as to avoid newly submitted prior art. Applicants argue that since all of the claims were previously considered together they should not be divided now. Applicants basically argue that the Office has been inconsistent in prosecution of this application and that the restriction requirement should be withdrawn.

It is also noted that this application is the National Phase filing of PCT/EP95/04155. As such the making of a restriction requirement solely under 35 U.S.C. 121 without consideration of PCT Rule 13 provisions is improper. As only RCE papers have been filed this application remains a National Phase application.

DECISION

Applicants' petition is **GRANTED**.

The restriction requirement of the last Office action is withdrawn. The application will be forwarded to the examiner for consideration of the response filed December 19, 2002.
